Cairo, Egypt

PROFESSIONAL SUMMARY

Second-year Computer Science student at Helwan University specializing in Software Engineering, Artificial Intelligence, and Cybersecurity. Experienced in full-stack web development, penetration testing, and object-oriented design patterns. Proven ability to deliver collaborative technical projects and apply industry-standard security tools in hands-on environments. Seeking an internship or entry-level role in Software Engineering, AI, or Cybersecurity.

EDUCATION

Bachelor of Science in Computer Science

Helwan University (Faculty of Computing and Artificial Intelligence) — Cairo, Egypt

Expected Graduation: 2028 | Currently: Year 2

- Relevant Coursework: Software Engineering, Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Computer Networks

EXPERIENCE

Cybersecurity Trainee — National Telecommunication Institute (NTI) | Cairo, Egypt

2025 | 60 Technical Training Hours | 12 Freelance Hours

- Completed 60+ hours of structured cybersecurity training covering network security, ethical hacking, threat analysis, and incident response
- Conducted a full penetration testing engagement on a Metasploitable 2 environment, identifying and documenting multiple critical vulnerabilities across FTP, SSH, and web application layers
- Performed vulnerability assessment using Nessus, network scanning and enumeration with Nmap, and live traffic analysis with Wireshark
- Executed exploitation techniques including vsftpd 2.3.4 backdoor, SSH brute-force, SQL Injection, and Cross-Site Scripting (XSS) attacks on DVWA using Metasploit and SQLmap
- Produced a remediation report recommending patching strategies, authentication hardening, firewall configurations, and input validation best practices

Web Development Member — X-Project | Helwan University Student Activity

12/2024 – 07/2025

- Collaborated with a student team to design, develop, and maintain web application features using HTML, CSS, and PHP
- Participated in code reviews, sprint planning, and collaborative problem-solving sessions within an agile-style workflow

Problem Solving Member — MSP | Helwan University Student Activity

05/2025 – 11/2025

- Solved competitive programming challenges in C and C++, focusing on data structures, algorithms, and time complexity optimization
- Collaborated with peers to analyze and break down complex algorithmic problems in structured group sessions

PROJECTS

Holistic Mental Health & Wellness Portal

Software Engineering Project — Capital University (FCAI), 2025/2026 | github.com/MaherNo1/SE-project1

- Engineered a full-stack web platform in PHP 8.x and MySQL connecting patients with therapists, supporting 4 user roles and 42 system functions

- Implemented strict MVC architecture with design patterns including Singleton, Factory, Observer, and Repository for maintainable, decoupled code
- Built responsive UI using HTML, Tailwind CSS, and JavaScript; applied PDO with prepared statements for secure database access
- Collaborated in a 6-member team using Git and GitHub with a structured branching strategy (main / dev / feature / fix)

TECHNICAL SKILLS

Programming Languages: C · C++ · Java · PHP

Web Development: HTML5 · CSS3 · Tailwind CSS · JavaScript · MySQL · PDO

Software Engineering: MVC Architecture · OOP · Design Patterns (Singleton, Factory, Observer, Repository) · REST APIs · Agile

Cybersecurity: Penetration Testing · Vulnerability Assessment · Network Security · Ethical Hacking · Incident Response

Security Tools: Nessus · Nmap · Wireshark · Metasploit · SQLmap · DVWA · Kali Linux

Version Control: Git · GitHub

Productivity: Microsoft Word · Excel · PowerPoint

CERTIFICATIONS

Cybersecurity Training Certificate — National Telecommunication Institute (NTI) | 2025

- Issued upon completion of 60 technical training hours and 12 freelance hours covering network security, ethical hacking, and penetration testing

PROFESSIONAL SKILLS

Problem Solving · Technical Communication · Team Collaboration · Code Review · Analytical Thinking · Attention to Detail · Time Management · Adaptability
